

A genealogical profile of Edward Leister

Birth: Edward Leister was born in England.

Death: His place and date of death are unknown.

Ship: *Mayflower*, 1620

Life in England: Nothing is known of his life in England.

Life in New England: Edward Leister, along with Edward Doty, came to Plymouth Colony as servant to Stephen Hopkins. The two servants committed the second offence in the colony, a duel fought “upon a challenge at single combat with sword and dagger.” Both were wounded, although not seriously, and were punished by having their head and feet tied together. Leister was included in the land division of 1623, but his name does not appear in the division of cattle held in Plymouth Colony in May 1627, so he had left the colony by then. William Bradford in his history of the colony wrote that “after he was at liberty, went to Virginia and there died.” His name does not appear, however, in either of the two lists of Virginia inhabitants compiled in February 1623/4 and February 1624/5.

Family: As a servant, Edward Leister was most likely unmarried.

PLYMOUTH ANCESTORS

Where do I go from here?

Researching your family's history can be a fun, rewarding, and occasionally frustrating project. Start with what you know by collecting information on your immediate family. Then, trace back through parents, grandparents, and beyond. This is a great opportunity to speak to relatives, gather family stories, arrange and identify old family photographs, and document family possessions that have been passed down from earlier generations.

Once you have learned all you can from family members, you will begin to discover other sources. A wide variety of records can help you learn more about the lives of your ancestors. These include birth, marriage, and death records; immigration and naturalization records; land records; census records; probate records and wills; church and cemetery records; newspapers; passenger lists; military records; and much more.

When you use information from any source — an original record, a printed book, or a website — always be careful to document it. If you use a book, you should cite the author or compiler, the full title, publication information and pages used. Also be sure to record the author's sources for the information. If the author's sources aren't provided, you will have to try to find the original source. Many genealogical works contain faulty information, and the Internet also contains many inaccuracies. In order for your work to be accepted — by lineage societies and other genealogists — it must be properly documented.

IMPORTANT GENEALOGICAL RESOURCES

New England Historic Genealogical Society

Founded in 1845, NEHGS is the country's oldest and largest genealogical society. The library contains over 200,000 books, plus significant manuscript and microfilm collections, and a circulating library by mail.
