

# A Genealogical Profile of Thomas Morton

---

**Birth:** Thomas Morton was born about 1617.

**Death:** He died after March 28, 1688, probably in Plymouth.

**Ship:** *Anne* or *Little James*, 1623

**Life in England:** Nothing is known about his life in England.

**Life in New England:** Thomas came to Plymouth in the summer of 1623. He may have been a relation of the other Plymouth colonists surnamed Morton. A Thomas Morton had traveled to Plymouth aboard the *Fortune* in 1621, and George Morton and his family were passengers aboard the *Anne* in 1623. The two Thomases may have been father and son. The younger Thomas might have been a nephew of George Morton. When Thomas sold some land in 1639, the sale was subject to the approval of Julian (Morton) Kempton (George Morton's widow) and her second husband, Manasseh Kempton, implying a family relationship.

**Family:** Thomas married Rose \_\_\_\_\_ about 1645, but there are no recorded children. She died on November 31[sic], 1685. He died sometime after March 28, 1688, when he deeded his entire estate to his longtime servant, Samuel Gardiner.

# Where do I go from here?

**Researching your family's history** can be a fun, rewarding, and occasionally frustrating project. Start with what you know by collecting information on your immediate family. Then, trace back through parents, grandparents, and beyond. This is a great opportunity to speak to relatives, gather family stories, arrange and identify old family photographs, and document family possessions that have been passed down from earlier generations.

Once you have learned all you can from family members, you will begin to discover other sources. A wide variety of records can help you learn more about the lives of your ancestors. These include birth, marriage, and death records; immigration and naturalization records; land records; census records; probate records and wills; church and cemetery records; newspapers; passenger lists; military records; and much more.

When you use information from any source — an original record, a printed book, or a website — always be careful to document it. If you use a book, you should cite the author or compiler, the full title, publication information and pages used. Also be sure to record the author's sources for the information. If the author's sources aren't provided, you will have to try to find the original source. Many genealogical works contain faulty information, and the Internet also contains many inaccuracies. In order for your work to be accepted — by lineage societies and other genealogists — it must be properly documented.

## IMPORTANT GENEALOGICAL RESOURCES
